Long-Term Non-Endowment Investment Portfolio

The Long-Term Non-Endowment Portfolio maximizes capital appreciation and income to grow grantmaking beyond the initial investment. The portfolio leverages higher levels of investment risks to obtain market-like returns and is best for donors who intend to grant funds over a long period of time.

Investment Narrative

Quarter ending June 30, 2026

The Long-Term Portfolio returned 8.7% for the quarter, trailing its benchmark by 0.4%, and finished the fiscal year with an 18.2% net return, outperforming its benchmark by 0.2%. Performance varied among the underlying investment managers, as some strategies struggled to keep pace with the market's rapid recovery. However, U.S. public equities and emerging market equities delivered strong returns during both the quarter and the full fiscal year and were the primary contributors to overall portfolio performance.
